Dr. Jayne's ALTERATIVE

This valuable preparation combines all the medicinal virtues of those articles which long experience has proved to possess the most safe and efficient alterative and desobstruent properties, procuring for it a world-wide reputation as

THE GREAT PURIFIER OF THE BLOOD AND RENOVATOR OF THE SYSTEM.

Whenever the economy of the life-giving fluid has been vitated, it should be immediately called to help. It drives out pernicious humours, stimulates the absorbents, overcomes the obstinate state of the pores of the skin, regenerates the disordered organism, reestablishes health and spirits, and brings back a bright colour to the pallid complexion.

Thousands of testimonials establish its immense success for curing Scrofula or King's Evil, Skin and Mercurial diseases, Boils, Carbuncles and Ulcers, Dropsy and Dropsical Swellings, Enlargement and Ulceration of the Bones, Joints, Glands or Ligaments, Erysipelas, Epilepsy, Goat, Rheumatism and all diseases originating from a depraved and imperfect state of the Blood.

DR. JAYNE'S ALTERATIVE

is compounded from carefully selected drugs; free from all mineral admixtures and may be Safely Relied on by all needing a medicine to build up the system, cleanse the blood and restore the healthy action of the secretive organs.

Postal Service

Address of Printed Matter

The handling and throwing about of the mail bags in course of transmission frequently loosens the packages of newspapers and displaces the wrapper with the address, thus leaving them without any, unless it be written on the newspaper itself.

This happens most frequently on long voyages, and thus, very often, a considerable number of books and newspapers arrive by the European steamers without any address whatever, and wrappers so damaged that it is impossible to tell to what papers they belong.

The Administration of the Post Office, being anxious to avoid an agglomeration of printed matter without address, begs the Public—

1st—Always to write the address on the newspaper, or other package, itself, as well as on the wrapper, and it is desirable with strong twine, if there be more than one book or newspaper.

2nd—To ask their correspondents at home and abroad to be kind enough to do likewise.

Muy Sres mios
Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Fluido Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los accites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

FOR LENT
Moore & Tudor's
Fresh Gulf Shrimps, the most delicious novelty in preserved fish.
Read the unaltered and unabridged report of the packer below.
The shell is removed and canned 'au natural, ready or the table put up in tins, two dozen in a box. Thoroughly cooked, and ready to be served as a Shrimp Salad.—The fresh Gulf Shrimp's 'canned by our process' is one of the finest and most delicate entrem ts that can be offered at lunches and private suppers, or in families as a supplemental dish at breakfast or dinner, being sufficiently cooked, can be seasoned and served on the moment. Our Shrimps are put up natural, cooked in linen sacks, and thereby kept from direct contact with the tin. By this process their purity, original freshness and flavor is retained. On emptying from the sack, may be rinsed off in fresh water.
Are oftener eaten as they are, cold, with or without seasoning, made up from the castor to suit your taste, than any other way. They relish admirably in a mayonnaise, also with all the usual green salads—each in their season—such as: Sweet Bell Pepper, Lettuce, Water Cresses, Celery, Raw Tomatoes, &c., &c. They garnish handsomely a boiled fish, and relish well with it. In warm cookery, a well seasoned sauce or gravy made to taste with or without Tomato, and the Shrimp added about the time of dishing, so as to become warmed without additional cooking, are very fine. Also for stuffing Tomatoes, Egg Plants, &c., in short there is no way in which they cannot be eaten with pleasure—avoiding, as far as convenient, any material additional cooking, for the reason that they may soften which somewhat detracts from their appearance, and their delicate flavor is partially lost trace of in the mixture. Our fresh Gulf Shrimp need no further cooking, but are ready for the table. Sold by best family grocers generally.

New President installed to-day with usual ceremony. Gen. Garfield's Message sketches the policy of his Government—spare no pains to abolish distinctions between races and to secure harmony amongst all citizens; will not oppose Panama Canal, but take good care of American interests in that part of the Continent.

CORDOBA OBSERVATORY

There are many natural advantages and institutions, inherent to modern development, which Argentines may well be proud of; the matchless fertility of the soil, the immense territory, stretching from Bolivia to Cape Horn, Republican principles, liberal education and invincible progress, are attributes that tickle the amour propre of all; but these and many other qualities are merely local, and it is fit, therefore that the greatest pride of the country should rest on the Observatory, which calls the attention of the world and diffuses the lights of science and discovery far beyond the limits of the Republic. An Observatory belongs to the world at large, and its telescopes peer into spheres whose limits are unknown, the shining lights of which are open to investigation by all; each discovery, each problem is the patrimony of pupils of Newton, of Herschell, of Helvetius, of Leibnitz, who were also pupils of the Chaldeans and of the Medes. Astronomy is cosmopolitan, and the Observatories belong to science: there are at least some things in the world which cannot be monopolized and which prejudice cannot grasp. It is, therefore, no wonder that Cordoba can afford to slumber in a lethargy that dates from the conquest, since the boasts an observatory, which vindicates her to the world. The Cordobese have never been able to shake off the even tenor of life since three centuries, and if there has been any sign of reform of late, it has been in a wrong direction, since instead of keeping to the stars her sons have turned their eyes on the land limits of the sister-provinces.

Now that the perihelia of Jupiter and Saturn are engrossing the attention of the world, the Cordobese Chaldeans are coming to the front, and it is with unfeigned interest we read Dr Gould's report in the Memoria of Education. During the year 1879 the observations exceeded all previous years. With the Meridian Circle 16,760 complete observations were made of 6,119 stars, besides 1773 polar stars for verification purposes in the instrument; another 1243 stars were observed to determine the error and movement of the normal pendulum. Messrs Bachman, Davis and Wiggin made these observations.

The errors of observation remain to be determined; the observations reach 106,000, exacting very heavy work, but Dr Gould hopes to finish same during the current year, when he will be able to publish the Zones. Some more aid is wanting for calculations in the Observatory; it is incredible how Dr Gould, with so few help-masters, has been able to get through all the work. As the Director of the Observatory ably states, the astronomers and scientific men of the day recognize the immense importance of the Cordoba Observatory, and greatly acknowledge the intelligent efforts of the Argentine Government.

During 1879 the monumental Uranometria Argentina appeared; it is useless to refer to the work, as the scientific world has already decided its merits and tributed its praise to the author.

There are many observations ready for the press; thus those of 1872 will occuppy one volume; of 1873 two volumes; in fact there is matter for 10 volumes and two catalogues. Mr Thome observed the periodical comet of 12 years, discovered by Temple in 1867, and the observatory is in possession of previous observations of same, which will serve greatly to determine the orbits more accurately.

The report contains a most interesting description of the Forrester Comet, which, according to many old women, brought on the June revolution. Dr Gould states that this comet appeared in 1843, and Astronomers then calculated that it would take 532 years to complete its period; in 1843 this comet was visible in broad daylight and a ship captain, with his sextant measured its distance from the sun. Thus this comet completed its revolution in 37 years, and its most extraordinary feature consists in its proximity to the sun; in the perihelion the distance from the centre of the sun to the centre of gravity of the comet was only 1176, taking for unity the sun's radius; such close proximity must have greatly influenced the form of the orbit and the period. The perihelion took place on the 27th of January 1880, before mid-day in Cordoba, the velocity of the nucleus and the proximity to the sun being such, that during the 4 days' from the 25th to the 28th January the comet coursed through 319 1|20th of the 360° of the whole orbit.

The Mondego's Mails.

London, February 7.

Our special correspondent telegraphs from Newcastle that the uneasiness which has recently been felt as to the position of the British garrison at Wakkerstroom has been dissipated by the receipt of a letter from Captain Saunders, who reports that they are holding out well, and could do so for some time. They had made a sortie, and captured a large number of animals. Numbers of Dutchmen from the Cape Colony are reported to be passing through the Free State on their way to join the Boers in the Transvaal, and in Newcastle they openly declare their intention to fight against British supremacy. The Dunkeld has arrived at Durban with a number of officers.

The representatives of the Powers will meet to-day in Constantinople to discuss the answer to the Porte's Note of Jan. 14. Much indignation is felt amongst the Turks at the attitude of the French Government. Our correspondent telegraphs that Lord Granville has approved of the Turkish suggestion, but thinks it desirable to fix the territory which the Sultan is willing to cede in the last resort. In the Greek Chamber on Saturday a demand was made for a statement as to the intentions of the Government on the Frontier Question. M. Coumoundouros replied that the Powers, which continued to show a very friendly disposition, had never counselled Greece to reduce her claims or moderate her aspirations, but had only warned her against taking any irrevocable step.

Our Constantinople correspondent telegraphs that there is excitement among the Syrian populations. The Governor of Damascus recently telegraphed for troops, owing to the threat of the Arabs to march on that city with 50,000 horsemen, but as the danger ceased the request was withdrawn.

Resistance to the Porte is spreading in Albania. Those who are sent to enforce the orders of the Government are withdrawn to avoid an outbreak of rebellion. The reserves summoned do not obey, and a portion of the Albanian battalion in Salonica recently gave notice to the officers of the nearest railway that any despatch of Turkish troops to Albania would lead to the murder of the railway officials.

It is announced from Constantinople that the Porte is making preparations to impose new taxes to meet the necessities of the State. A forced loan is to be raised in the capital, while the land tax is to be increased and payment exacted for five years in advance. A poll tax of one medjidie per head is also to be collected from the entire population.

Mr. Goschen on his way to Constantinople has stopped at Berlin for interviews with the Emperor and Prince Bismarck. He is believed to have urged upon the German Chancellor that, in case of the forthcoming negotiations upon Turco-Greek affairs not resulting in a settlement, the decision of the Berlin Conference should be considered to have resumed its validity.

Our Berlin Correspondent states that all the German minor Governments seem to oppose Prince Bismarck's proposals, which include the pensioning of invalid labourers by the German central Government.

The King of Ashanti is stated to have declared war against the British Government on the Gold Coast because of the Governor's refusal to surrender a native chief who had taken refuge on British territory. On hearing of King Coffee's threatening attitude the Governor of Sierra Leone despatched two hundred and fifty of the 2d West India Regiment, who were due to arrive at Cape Coast Castle on the 2d inst.

A financial operation is contemplated by the Spanish Government, which will, it is said, effect a large reduction in the annual expenditure of the State.

The long illness of Thomas Carlyle terminated in his death early on Saturday morning, at his residence in Cheyne-row, Chelsea. Mr. Carlyle was eighty-six years of age.

The Emergency Committee of the Grand Orange Lodge of Ireland have sent an expedition, composed of some of those who took part in the Boycott expedition, to take charge of Ebor Hall, the estate of Lady Mountmorres. Applications for assistance have also been received from others who are suffering from the terrorism exercised by the Land League.

A new organisation has been formed in Russia on the model of the Irish Land League, which seeks to establish political terror by means of a system of threats, incendiarism, and assassinations,

Davitt, who was removed from Millbank to Portland on Saturday, is said to have been already placed in hospital, and it is reported that the rigid discipline of convict establishments is to be relaxed in his favour. Our Dublin Correspondent also learns that, as soon as affairs in Ireland become more peaceable, Davitt will be released on condition of his not returning to Ireland.

A meeting of sympathisers with the Irish Members who are opposing the Coercion Bill was held yesterday afternoon in Trafalgar-square, when the Bill in question was burned and Resolutions denouncing the Government were passed,

Lord Coleridge on Saturday delivered the judgment of the Court of Appeal in the case of the 'Attorney-General v. the North Western Railway Company,' an appeal by the latter from the Exchequer Division. That Court had decided that the Company was liable to certain duties beyond the ordinary duty, and especially with respect to extra fares for Pullman cars, Their Lordships—the Lord Chancellor and Lord Justice Brett being also on the Bench—affirmed this decision and dismissed the appeal.

On Saturday the Stock Markets were quiet with a dull tendency. Consols for money and the account remained unchanged at 98⅛ 98⅝ and 98 11-16 99 13-16 respectively. With the exception principally of some improvement in the Great Northern 'A' and North-Western, Home Railways inclined downwards, Chathem, North-Eastern and Scotch lines left off at reserved quotations. A disposition to realise was noticeable in Foreign Government Securities. Egyptian, Mexican, Peruvian and Spanish closed at a decline, but Hungarian Gold Rentes were fractionally better. The Stock-Exchange fortnightly settlement commences to-morrow.

THE BOER WAR.

LATEST PARTICULARS.

No news has been received of our besieged garrisons in the Transvaal. It is feared that the Potheffstroom must fall, with over one hundred men of the 21st Regiment and two guns of the Royal Artillery.

It is impossible that these should be able to cut their way through, and, therefore, failing provisions, must surrender to the Boers.

All the efforts of the Boers to induce the Zulus to assist them continue to be fruitless. The natives everywhere sympathise with the British.

It is said that the Swazies and other tribes only require an invitation from the Government to overrun the Transvahl.

From careful inquiries I can affirm that the troops behaved very well at the affair at Laing's Nek.

They were hurried up to the position so fast that when they arrived at the top the men were breathless and exhausted, and were even unable to extend, and so were shot down.

They retired in perfect order, the enemy not daring to face the bayonet.

The Boers are all mounted, are magnificent shots, and altogether a formidable enemy.

When the Indian troops arrive, however, General Colley will be able to assume the offensive, with a certainty of success.

Six loyal Boers have reached Newcastle, having made their way

down from Pretoria. They arrived in a state of great destitution.

They report that there is a great deal of discontent existing against the Boer leaders, and that it is possible that a counter-revolution may be attempted at Heidelberg. Reports of this kind brought in by Boers must be regarded with suspicion.

"From Generl Officer Commanding Natal and Transvaal to Secretary of State for War, dated 5th February:—

"I fear Anstruther died of wounds before removed from the battle-field, but his death has not been officially reported

"Lanyon reports Carter, Commissariat, dead at Pretoria of wounds received on December 20th."

"From the General Officer Commanding, Natal and Transvaal, to the Secretary of State for War, dated 5th February:—

"News received from Lanyon, Pretoria, to 23d January. Town abandoned; nearly five thousand persons collected in entrenched laagar, under the protection of the fort. Supplies on hand for several months. Garrison augmented by volunteers, ample. Boers in laager all round at an average distance of eight miles; successful sortie on the 16th; Boers defeated with loss. Surrender of Lydenburg garrison contradicted.

"Reported that Lydenburg and Rustenberg Forts have been unsuccessfully attacked; forts well provisioned and soldiers reinforced by local help."

Newcastle, Saturday.

Considerable uneasiness has been felt since the check at Laing's Neck with reference to the position of the British garrison at Wakkerstroom This has been dissipated to day by the receipt of a letter from Captain Saunders, the officer in command at that post.

He reports that the garrison are holding out well, and are in good heart.

They had received the news of our repulse at Laing's Neck, but were not discouraged, as they felt confident of their ability to hold out for some time.

They had made a sortie, with a force consisting of 40 mounted townsmen and soldiers and fifteen men of the 58th Regiment. Complete success had attended this operation. The enemy were driven away with a loss of two killed. 203 horses have been captured and 15 head of cattle. Other stores had fallen into our hands. We had no serious casualties on our side.

MONTEVIDEO

Dear *Standard*

The Montevidean Carnival presented the usual features—a masked skeleton. Dr Daguino has written several remarks on three days' orgies, charitably reminding young persons that these excesses shorten life and disseminate the seeds of disease, and really everybody looks unwell after the amusements. Excesses are always dangerous, but the Doctor might have as well dwelt on the pernicious effects of revolution and politics, which carry off many more victims than poor King Carnival: he might have deprecated the use of fire arms and left the pomos alone: if we are to cure evils, let us begin with those that sap the foundations of the country. The follies inherent to the atmosphere of a masked ball are not as dangerous as the newspaper articles that smooth the way to violence and revolution. The amusements of a people should never be touched: when the people do not amuse themselves they are dangerous. The same may be said of the individual who scruples any pleasure.

During the Carnival feast Monsignor Vera, the Bishop, was insulted by two fellows. A policeman arrested them and took them to the Policia, in spite of the Bishop's request to have them released. Fortunately the papers seldom chronicle insults of this kind, which are very discreditable.

The vision of the Durazno people has turned out to be a farce. An old woman created the sensation by running about at night in a sheet, greatly enjoying the fun of frightening her timorous neighbours. The different versions circulated are wonderful, and the marvellous exaggerations remind one of Fontaine's fable of the husbandman and the two hen eggs.

Dr Jurkowski will give a series of lectures on comparative anatomy twice a week. The class will be crowded, and the application for tickets is increasing daily. Instruction, although fostered by Government, is, nevertheless, in a sad plight. Thus in Trinidad, which comprises 224 square leagues, with a population of 100,000 inhabitants, there is only one school, with 15 to 20 children, in Guaycuru; nevertheless the inhabitants pay the 1½ per mil tax to the Government for the establishment of State schools Education should be obligatory.

Investigations are being diligently made to find out the cause of the great conflagration of the School of Arts and Trades; the affair will end in smoke, and the Government has already selected another site for the school. The new school will be erected in the Playa de Ramirez, the new barracks of the Cazadores. The two Ayudantes of the Captain of the Port, who were suspended for not giving due notification of the conflagration have been reinstated in their posts, having given satisfactory explanations on the matter. A committee, meantime, has been formed, with the very laudable purpose of organizing a charitable subscription to raise funds to erect a splendid new building for the school of Arts. There is not the slightest doubt that the subscription will prove a success, like every other charitable institution on the banks of the Plate.

Talking of subscriptions the *Democracia*, through its columns, has organized one in favor of Mr Lindolfo Spickermann, who died the other day. Deceased was much esteemed and had a large circle of friends. Mr Alcides de Maria, the Juez de Paz of the 5th Section, has been named to fill the deceased's post.

The Cerro-Largo business has, at last, come to a close. The unlucky Jefe and overbearing Commander have been forgotten nearly. Lieutenant Perez, with twenty soldiers, is approaching Montevideo, conveying all the rifles, cutlasses and bayonets of the Iefatura. This incident has been the most amusing recorded: it was a repetition in miniature of what happened in B. Aires when the Minister of the Interior and the President of the Municipality were dragged down, owing to the police and the soldiers As matters stand both Commander and Jefe will resign.

The Papal Nuncio, Monsignore Mattera, leaves to-night for Buenos Aires.

The arrival of passengers from Buenos Aires of late has been simply extraordinary. The Saturno, Silex and Jupiter have been crowded with passengers, and the lists teem with familiar names. The cricket match, no doubt, attracted many. The Montevidean Club lost, the Buenos Aires winning by many runs, If the fine weather continues the Mount may expect still more visitors.

EDITOR'S TABLE.

The Rothschild Immigration project in yesterday's *Libertad* fairly took away the public breath: Five millions of immigrants in 14 years, to populate 890 square leagues, with railways, &c., thrown in free by the great money Czars, who only ask part of the land as reeompense. Our information on this project differs from our colleague's. Messrs. Rothschild's offer is to build 800 miles of railway in the north of the Republic, taking payment in lande, which they undertake to populate. This splendid scheme shows what the first commercial house in the world thinks af this Republic. The Rothschild's never make a mistake.

M. Rouvier, French Charge d'Affaires, leaves to-day for Rio, where he has been appointed Secretary of Legation. Never had the French republic a better or more popular representative here than M. Rouvier, who leaves legions of friends, by no means confined to his own countrymen, behind him. We heartily join these friends in wishing him continued success and promotion in his career.

The mails by the Royal Mail s.s Mondego were delivered yesterday; they are two days later than the Maskelynes viz. to 7th ult. There is nothing very important. King Coffee of Ashantee has got into hot water with England again, and troops have been despatched from Sierra Leone to cool him. The Zulus and a number of other tribes have offered to help the Cape Government to wipe out the Boers, who have begun to squabble amongst themselves. All the Land League meetings called to protest against Davitt's arrest were prohibited by the Government, which, it is said, intends to release him when order is restored, on condition that he does not return to Ireland. The Ladies' Land League is at work; at their first meeting they decided not to admit newspaper reporters!! In Austria and Russia Land Leagues on the Irish model have been started and have already turned out some first-rate Boycotters. No fresh rows in Parliament at Westminster.

The Papal Delegate, Monseüor Mattera, arrived from Montevideo on Sunday. The steamer carried the Papal flag at the fore when entering port.

The principal thing stirring on Sunday was Dust, and the heat was so great that most people who valued either their comfort or their complexion stayed at home, till the sun set. The heat yesterday was even worse. By Jupiter! The Archbishop has ordered prayers for rain

The French Mail Steamer Congo sails to day. In case our mercantile readers should not have taken our advice to stick in the crown of their hats the regulations about the closing of the mails which we published last week, we may repeat that the closing hour for stamped letters on working days is 1 p.m. at the G. P. O.

A Joint Stock Company has been formed to open a new Skating Rink in this city, much larger than the present one.

Our esteemed colleague *La Tribuna Nacional* published on Sunday an article of the most flattering kind on Irish emigrants, for which we make it our best bow. We deeply regret, however, that the premise on which our colleague wrote in such friendly terms, viz. the arrival last week, by the Maskelyne, of 300 Irish emigrants, is as purely imaginary as the massacre at Chorillos; but it might have been true, ought to have been true, it's a vast pity it's not true, and the article on it is as good as if it were true. We must also correct our colleague as to the United States subsidising emigrant steamers. It does not, although it is the very thing it ought to do; but a leading North American resident told us yesterday that it is hoped that the Garfield Government will be able to induce Congress to take the step.

The burial of Carnival on Sunday was rather gay, and Mr Cranwell must have sold a considerable 'llapa' of his famed 'pomitos.' The Corso was shorter than during Carnival—through Florida and Victoria only. The prizes were distributed to the 'comparsas' in Plaza Montserrat. The Stella d'Italia and Negros Alegres got first class gold medals; the Negros Victoriosos stella di Roma, Negros Candomberos and Union Marina second class gold; the Union de la Boca and Lago Lombarda first class silver, and the Artesano del Plata, Negros Chichones, Negros Triunfantes and Cruceros de Magellanes second class silver. The masquerade balls at the theatres were crammed to suffocation.

The heat of the weather is making some of our colleagues unusually bellicose. The *Tribuna Argentina* announced on Sunday that this country is going to war with Chile. The *Patria Argentina* announced on Monday (yesterday) that the U. States is going to war with Chile, and to-day, (Tuesday, we may perhaps, be told that the Shah of Persia is going to war with Chile, who will find herself in rather 'a tight place,' if all this news be true. We maintain what we have said all through—that there is no probability of a war between this country and Chile, but every chance of an amicable settlement, sooner or later, of the question between them.

A 'little unpleasantness' was caused at the Municipal Carnival in Mercedes by the disappearance of a dozen or so of the best hats in the cloak room, and the parties who took them (in mistake for their own, of course) had not even the grace to leave their own in place of them, so the rightful owners had to go home hatless. A 'mistake' of this kind, involving the disappearance of one of Sommer's best white, occurred in the *Standard* office some years ago, but after some advertising we got the hat. In this case the party left a 'shocking bad hat' in place of his own.

We deem it right to remind all our Anglo-Porteño readers liable for service in the National Guard that the 20th inst will be the last day for enrolment, and that the penalties for not doing so are extremely stringent and unpleasant, and will be strictly enforced.

A morning colleague is puzzled to decide whether the corpse found the other day in Calle Piedras, tied up in a sack, and with feet, legs and arms bound to boot, is that of a 'suicide,' or a victim of murder! It certainly is a knotty point. The rope trick has never been so well performed before.

The Mispah has arrived with 700 tons of coal from the Martha mine at Skyring Water. The output of this mine is increasing in a most satisfactory manner.

The Salta papers refer to a probable revolution in Jujuy. 'Revolution!' Pshaw! The word was effaced from the Argentine Dictionary last year, and it even if it had not been, it is ridiculously high sounding for provincial electioneering squabbles.

Dr Avellaneda, ex-President of the Republic, has been elected Rector of the University of Buenos Ayres, vice Dr Quintana who retires, A backward glance at Dr Avellaneda's brilliant career as Provincial Minister, National Minister of Education and President of the Republic, coupled with his high and deserved literary reputation, render this appointment a peculiarly suitable one, on which we congratulate alike the Government, the University, and the new Rector.

Tucuman has had a hurricane of a decidedly stiff kind. ON 'CHANGE.

March 7th, 1881

Patacons	29.25
Cedulas A	92½
National Bank Shares	77
Bonos Provinciales	½ premium.
National Bonds, 1863,	85

The week has opened with a sudden jump in gold, which was attributed to some Chilian news published in one of yesterday's papers. Prices for cash opened at 29.20, rose to 29.50, and closed at 29.25; the sales cash only amounted to 90,500 pats, but more gold was offered than sold. The sales of the day amounted to 834,800 pats., of which more than the half was for the end of the month. Spite of the nonsense in the papers against Chile there was decidedly a better feeling in the market to-day; a very important decree of the Nat Government, which is being prepared, was known to a few, and is likely to have a most beneficial influence on the country and the market. The National Government, it seems is resolved to name new Ministers and new agents in all the great countries of Europe, and to resort to every means to attract the attention of the European working classes towards this country; furthermore the Government is taking steps to make the fares for emigrants to the Plate on a level with those to the United States. Gold was sold to-day for the end of the year at 28.75.

Cedulas are steadily marching to par; last week a large amount of stock was burnt in the Bank patio, being Cedulas amortised and paid off by mortgagors; this destruction of so large an amount necessarily makes the stock scarcer The sales cash to-day were 56,000, and prices closed firm at 92½. National Bank Shares opened weak and closed firm; one lot cash sold at 76⅜, at once caught up, and prices for end of month ruled firm at 77⅜. It is said that any combination of a few with sufficient money to take up say 10,000 shares available on the Bolsa would give them complete control of the market.

The most important news by far on 'Change was that the world renowned house of Rothschild has offered to build 800 miles railway for the Nat. Government, and receive payment for same in land; this news was only known to a few on 'Change, but we received it from the most reliable source, and the railway proposed is one in the South. Possibly the official Government papers will have more about this matter in the morning.

National Bonds were sold to-day at 85, and Bonos Provinciales at ½ premium.

The Montevideo's mails were delivered to-day at 2 o'clock; the London papers are to 7th February, and a summary of the news will be found in another column.

We heard on 'Change to-day that on the four leagues of the Venado Tuerto reserved by Messrs Casey and Gilmour for a town, a million of bricks have been ordered to be made, and Mr Casey sends out a man at once to superintend the laying out of the town and building of some houses.

The lands in Santa Fe sold in London to the new Company, the prospectus of which we published about a month ago, realised £1,350 per square league.

The sales at the ring were—

For cash 90,500 at	29.20-30-25
For March 8th 2,000	29.30
For March 10th 2,000	29.20
For March 12th 35,000	29 20
For May 15th 50,000	29.20
For March 31st 475,300	29.20
For April 30th 153,000	29.10
For May 31st 15,000	29.
For Dec. 31st 10,000	28.75
Sales, 834,800.	

Cedulas—

Gold at afternoons continued firm and sales were made at 29.30 cash and 29.20 for end of month. It seems as if the present excited state of the gold market responds to an over-speculation for a fall in anticipation of the making of the railway loan. Gold was greatly oversold, and the ring began to find this out.

Exchange rules at 49½, and a large amount passed to-day for Congo. Francs 5.21-22 Paris and 5.23-24 Antwerp The Italian mail closed to-day, but the bulk of exchange passed to-day was for Congo. The Exchange, and in fact the money market in general, is likely to be somewhat effected by a large operation which will be done in these days, say for £150,000 stg. bills drawn by Western Railway on Barings, and to be taken by the Provincial Bank. The Railway Board is now determined to push the works ahead, and over a thousand more hands will be at once engaged. It is certainly about time.

Mr J Lloyd, of Rosario, who arrived down this morning, was welcomed on 'Change; also Captain Kerr, commander of the Allan line steamer Lucerne; she has brought 150 tons of cargo for here and a cook for the Cafe de Paris to make English pastry. She has a full homeward cargo engaged—15,000 salted hides at 30 francs and 10 per cent, and balance bales at 20s. and 10 per cent.

The wool sales reported on 'Change at the plazas this morning were—

2500 arrs., Duggan	85
1000 do do	91
1500 do N Fernandez	100
200 do regular	55
1500 do good	91

Several lots lambs' 50 to 75

All lambs' wool is fuller this year than ever of burr.

National Bank Shares at after hours improved and were done at 77⅛; two buyers for cash at 77, but no sellers; one sale for end of the month at 77⅛, at which rate market closed.

Up to closing hour of Bolsa nothing was known about the subscriptions to the Curumalan lands announced for to-day.

On Saturday Bullrich sells a lot of picked cows for breeding. We recommend some of the Venado Tuerto men to attend the sale, as 500 picked cows out on a league of land there is indeed a fortune.

Respecting the loan the only thing certain was that the Government is resolved to do it here, and free of all commission. Mr Cortinez, our popular Minister of Hacienda, is recovered and was in his office to-day. We believe that in these days the bids will be opened and business finally concluded.

Buyers of Municipal Bonds were very busy to-day, and we hear of several lots bought at 94. The *Libertad* gives the following summary of debt—

Law of June 23rd, 1870	$ 7,202,500
Law of Sept. 3rd, 1871	15,330,000

At a late hour we learned that the Curumalan land business began yesterday, and is not yet over; already some 40 subscribers, and we hope in our next to give full details.

The Mondego will be up in the morning, when we shall have opportunity to welcome Mr Treacher, the talented manager of the River Plate Bank, Rosario, Mr Chas. Drabble and others who have arrived out in her.

Large printed circulars of the Bell Telephone were given round to-day with amusing imaginary conversation, in the style of Walter Savage Landor.

Mr Victor Pechien, grain broker, sent round circulars to-day with an interesting review of the wheat market.

Mr Owen Lynch's splendid lot of wool from Rodriguez has arrived in the market this morning; it is consigned to Mr E Ham and has been sent directly to deposit to Messrs R van Gend & Leonet. Trittau's barraca. This lot is composed of 4,000 ar. of the finest and best considered wool that has come from the North this year; it is creditable to the growner, and it is to be hoped he will get paid for his care, although he refuses a splendid price at the estancia.

The Sales at afterhours were—

The sale of the Venado Tuerto will probably be long the talk of the market, as no business of the kind has ever before been so successfuly carried through, and although others may attempt a repetition, it will be difficult indeed to sell at a single sitting so much land and at such high prices. Stress is laid upon the lunch-influences, which, though doubtless good enough in their way had really very little to do, since the people who drank the most wine were not bidders. The truth about the Venado Tuerto lands is that they are intrinsically good, for, near and far in the country around the 'gauchos' and residents state that the place is famed for its inexhaustible pasturages; the guide that took us to the land told us that it was renowned for being the very best land in the whole province of Santa Fe, and that not long ago the stock of the whole country was fed on it, as everywhere else it was epidemic. Many parties say that the land may be good enough for cattle, but no use for sheep; such however is not the case; there is in the 'cañadas' of the Venado Tuerto room for hundreds of flocks; and we saw no fatter flock of sheep in our travels than that at Miguel Wheeler's on the edge of the land. It may interest many to know that some of the largest purchases of these lands are for account of people who will have stock on them this winter. A rich Irish sheepfarmer at present in Ireland has bought 9 square leagues; another lot of 7 leagues was bought for a wealthy Irish widow; estancieros and farmers at Mercedes, Saladillo, Giles, Navarro, Rojas, Salto, all purchased estancias for their own use and not for speculation. Another place was bought for an English Member of Parliament; another for a Belgian barraque o; another for a well known American dentist, and an English almacenero and a struggling editor. The whole place moved off so fast that some of the last lots and the most remote from Buenos Aires fetched higher prices than the lots within a few leagues of Brown, Gahan, and Casey's estancias in Rojas. But the sequel of this business has yet to be seen; some well known parties with money and stock, and who came to town to buy bought nothing, they held back too long, and when Mr John Brown began to bid in order to secure a good sized place for an absent friend there was a squeeze; he took 9 square leagues when many thought he would take but two, then followed Mr Owen Maxwell, of Giles, and as this portion of the land is reported by Mr Bridger and others who have gone over it as the best, the result was that Messrs Webster and Kimball, who well knew all about the land about there, closed on about 4 square leagues at $145,000 m/c per league, being from 10 to 15,000 m/c per league higher than what Mr Dalton, Mr Samson and Mr Greenway paid for lots fully ten leagues nearer to the city of B. Aires. The railway engineers who have surveyed the line of the proposed railway marked on the map from Pergamino to Rio Cuarto encamped on Owen Maxwell's land, and state that there is no better in the whole country. Hearne, McLoughlin's and Brown's lands are said to be very superior; as for Dick's, Bridger's Brett's and Mulally's the excursion parties knew all about them, since they breakfasted encamped there. Donckier's land adjoins the laguna and at Wheeler's they told us four flocks of sheep were there last April. Samson's land has also a laguna and has had sheep and cattle on it. The end of the land bought by Feely is within a short distance of the Iriondo colony, and will possibly be selling next year at so much a square to Swiss wheat colonists. The fall of Bullrich's hammer on the Venado Tuerto has already re-echoed over the country. The sale has proved the greatest of all surprises to many, and before the winter is over a few may have cause to regret that they did not secure 6 or 10 leagues of these unequalled camps, which are but 65 leagues from town, and next year will be almost connected with this city by the Western Railway. Time is the best of all fortune tellers, and we leave to time to decide the real value of the Venado Tuerto lands.

We congratulate the Municipal Bond holders on the immediate prospect of the payment of their overdue coupons. President Roca has taken the matter in hand and promised to see that the bondholders are paid; it is certainly high time, and as the National Government has taken over the city as the Capital of the Republic nothing could be clearer than its obligation to pay this debt. The whole amount at issue is but a mere trifle for the nation; yet the discredit to the country by the default promised to be a most serious matter, and we feel certain Minister Cortinez understands its importance.

We are indebted to Mr Barclay, the courteous purser of the Mondego, for the following mems:—

The R.M.S. Mondego left Southampton at 3 p.m. on 7th February, experienced heavy Westerly gale in Channel and Bay of Biscay. Arrived at Carril at 4 p.m. on 12th Feb., left at 6 a.m. on 13th Feb. for Vigo where we arrived at 9 a.m. on same day and sailed at noon for Montevideo. Experienced strong Westerly winds until Lat. 24 N. and Long. 21 W. when the North East trades began, thence to Line and subsequently fine weather.

Paris.

Snow fell again this morning. The City Administration had it swept off as it fell. The process of salting the streets has averted *verglas*. Since the beginning of the hard weather the municipality has distributed to the omnibus and Tramway companies 620,000 kilogrammes of salt, costing 111,600 f., to be used in melting the frost and snow on the roads, and have warned the concierges to do the same before their doors. In return the companies undertook to scatter it, and also lent 650 horses towards removing the snow. Beautiful wintry weather effects are to be found in the parks and gardens. The Place de la Concorde under bright sunshine has a cheering effect in the early hours of the day. Yesterday morning at six the thermometer marked 12 deg. below zero, and at noon no more than 11.

All Paris has been deeply stirred by the shocking fate of a little girl of nine, Georgette Babin, the only child of a prosperous greengrocer of the Rue Belzunce. She attended a day school, to which her father every morning took her, and fetched her back at noon. Two days ago they were walking home, hand in hand rejoicing in the bright sunshine which had come out after the snowfall. The streets they traversed were busy with traffic, and squadrons of sweepers who were pushing heaps of snow towards the sewer-traps purposely opened to receive them. At the corner of the Rue Hauteville, the child let go her father's hand to tighten her muffler. Just then a waggon drawn by a restive horse rumbled by. Babin instinctively moved backwards, thinking his daughter was by his side, but when he turned round to look for her she had disappeared. It was evident that in backing out of the horse's way she had fallen into a yawning sewer, which was of great depth. Cries for help were heard for a moment, and then ceased. The child had clung doubtless to the edge of the subterranean platform, and then been swept away by the force of the current, which was swift and swollen. The sweepers who flocked around could scarcely restrain Babin from jumping in after his child, who must have been instantly drowned. The district fire brigade was summoned, and came immediately, but too late, and the Police Commissary of the quarter telegraphed to the overseers of sewers to watch all the gratings between the Rue Hauteville and Asnieres. A fireman was lowered with ropes into the sewer, and remained immersed for twenty minutes. Others ran along the platform to explore, but unavailingly. The poor child's body has not been caught by any of the gratings, and may already be devoured by rats. It appears that on the day this tragedy occurred three ladies in different parts of Paris narrowly escaped falling into the sewers, the traps of which when opened are rarely if ever guarded by men charged to keep off the unwary.

Operations in the sewers are conducted under the eyes of the city engineers. Whenever symptoms of ice appear below, bags of salt are flung into the current, great care being taken to prevent the stoppage of the drains, and especially the congealing of the snow carried through them. An immense store of salt was laid in since last winter at a cost of 18 centimes the kilogramme, and supplied by the refuse of tanneries and other factories. Four workmen employed to empty snow waggons into the sewer which was fatal to the child, write to their employers that when they were approaching the sewer with a load, a man, accompanied by a little girl of nine, wanted to pass close to the waggon. The foreman cried loudly, 'Don't go there,' but he went on. The child followed him, but her foot slipped, and she fell into the sewer. The father cried, 'My child!' and all was over. This certificate is signed by four workmen, who give their addresses.

A storm such as that which yesterday swept the streets of London is probably without a parallel in living memory. The fierce driving gusts of wind, the snow which beat against the face with blinding force, the suddenness with with the rapid eddies seized and buffeted those exposed to them, rendered walking in the streets almost impossible. The greater part of the omnibus and tramcar drivers gave up the struggle as hopeless early in the day. As for cabs, those who by dint of lavish offers of reward could induce one to ply might consider themselver exceptionally fortunate. From all parts of the country accounts arrive testifying alike to the extent of the hurricane. In most of the large towns it is reported that business is almost entirely suspended. In Scotland, of course, the storm has been, as might have been anticipated, exceptionally severe. Roads and railway lines are blocked. The Caledonian Canal is frozen over. The inhabitants of Inverness and Forfar have been deprived of their water suppy. In many districts in France railway and telegraphic communication has been stopped. At Nimes the wolves have been driven to haunt the villages in the neighbourhood, and even in sunny Spain important towns have been cut off from communication with the rest of Europe for three days. London, as regards telegraphic and postal communication, may be said to be in nearly as bad a plight. The cold yesterday was perhaps a little less intense than on former days, but every here and there the streets were blocked with deep snow drifts; the river traffic was almost entirely stopped; and at one period of the day so violent was the gale that two men were positively lifted off their feet by the wind, blown into the Albert Docks and drowned. Railway trains have been abnormally delayed, and for once in a while the abject dependence of the Londoner on railways, tramways, and omnibuses has been painfully impressed upon his mind. On the coast, of course, the fury of the gale is described as unparalleled — vessels are reported as being driven ashore, and the life boats are busy with the heroic work of rescue. There are few men indeed to-day who, as they struggled through the storm, can have failed to appreciate what must have been the force of the gale on our shores, or omitted to bestow anxious thoughts for the safety of friends at sea. It may be days yet before we know fully what disasters have there been wrought, but it needs no effort of the imagination to picture the sufferings of men exposed at once to the fury of the snowladen gale and the force of the angry breakers. Scarcely less terrible than the work of steering a vessel in such weather as this is the task of the railway engine-driver who has to keep a look-out ahead for signals when steaming at the rate of forty miles an hour in the teeth of the hurricane. As after a battle a day elapses before the knowledge of the loss is fully ascertained, so it will be some little time ere we can reckon up the damage inflicted by yesterday's gale.

POR LOS MISMOS

El Magnifico Establecimiento de Campo

LA NORIA

EN CAÑUELAS

Estancia principal y 13 puestos

Todos edificios de material.

Campos especiales para invernada de animales o cria de ovejas, superficie 1920 cuadras, igual a una legua y un quinto. Tasacion total, campo y poblaciones, $1,920,000 m|c., estraordinariamente baja. Base de venta 2|3 partes—$1,280,000 m|c.

El Martes 15 de Marzo,

A las 4 de la tarde,

Procederemos a vender por orden y cuenta de su dueño, el magnifico establecimiento de campo situado en el partido de Cañuelas, distante solo 1¼ legua del referido pueblo y 12 de Buenos Ayres.

El establecimiento es conocido por la 'La Noria' y cremos que es escusado entrar a hablar sobre la calidad de el como campo de pastoreo, pues son de todos conocidos los campos de Canuelas.

Las poblaciones de estancia la constituyen la principal denominada 'La Noria, que tiene un edificio de material de 5 piezas, otra para cocinera, otra para peones, una gran noria con una colosal bebida de material, la cual puede abastecer de agua a 4000 cabezas de ganado vacuno, ademas hay 13 puestos de material todos techos de teja Francesa y en perfectisimo estado.

El campo esta actualmente arrendado a arrendatarios que hace anos estan alli, los cuales pagan por puesto $12.000 anuales adelantados, y por la Noria $11 000 o que viene a dar un arriendo de $170,000, pero como estos son adelantados y hay que calcular el interes respectivo resulta que estos se hacen $139,000, o sea el interes de mas de 1¼ p% mensual sobre la base de venta fijada. No hay pues, ni puede ofrecerse, oportunidad mejor para emplear un fuerte capital.

El arriendo que antecede es sin duda una buena informacion sobre la calidad de campo que se ofroce en venta, pues de suponer que solo por campo superior como este se obtienen tan buenos arriendo.

La tasacion practicada sube a $1000 m|c cuadra cuadrada, incluyendo poblaciones, tasacion infima, con relacion al valor que tiene en todo el partido y la base de venta son las 2|3 partes, es decir 636 pesos por cuadra de 150 x 130 vs. La venta se hara a razon de tanto la cuadra.

La figura de este campo es la de un cuadrilongo perfecto, y los interesados pueden enviar por planos a nuestra casa.

CONDICIONES DE PAGO.

Siendo este negocio de alguna consideracion y pudiendo quiza ser para algunos un inconveniente no disponer por el momento de la cantidad necesaria, proveniros que entregando una pequeña parte al contado, por el saldo se daran al comprador comodos y largos plazos.

POR LIQUIDACION

En nuestra casa San Martin 51

El Lunes 14 del corriente

A las 3 en punto

Procederemos a vender por orden y cuenta de su dueno y por liquidacion 7000 ovejas mestizas finas Rambouillet con su respectiva dotacion de sobresalientes padres.

Las ovejas son de 1ª clase por su tamano y finura de lana, la cual es adquirida anualmente por el conocido exportador Sr Frenery, los que deseen pues adquirir ovejas superiores, no busquen mejor oportunidad.

Las 5000 ovejas existentes en Sn Felipe en el Tandil estan divididas en 3 majadas en la forma siguiente:

Majada de Don Lucio Santillan.... 2000 ovis.
id id. Domingo Sabate.... 1500 id
id de Dona Rosa Algaaras.... 1500 id

y las otras en dos.

La base que ha sido fijada para su venta 25 m|c, es muy inferior relativamente al valor de estos animales, pues repetimos nuevamente que son superiores, y que son majadas de un Establecimiento conocido.

Pueden verse sin necesidad de orden, ya estan prevenidos en los Establecimientos. Por mas datos a nuestra casa, San Martin 51.

El Martes 22 de Marzo

A las 2 de la tarde

Venderemos al mejor precio y dinero de contado, por orden de su propietario y liquidacion de su establecimiento las haciendas que lo constituyen, siendo todas ellas de condicion inmejorable.

Las 1800 cabezas de ganado han sido criadas en el otro establecimiento del Señor Lima, en Zarate y de alli conducidas al de Lincoln, donde se encuentra actualmente y donde existieron sin mortandad alguna los varias tormentas de piedra que han acabado con otros establecimientos. En el rodeo solo hay 300 terneros, siendo todo lo demas muy grande y muy gordo, contando muchas lecheras.

La hacienda es muy mansa.

Todos los años se retiran los toros y se les cuida a pesebre a objeto de robustecerlos para el trabajo futuro de la primavera.

Las 600 ovejas son todas mestizas Rambouillet y son de muy buena clase y se hallan en magnifico estado de gordura.

Los 30 caballos y la manada de yeguas son superiores.

Se vende a mas:

Un potrero de fiandubay y alambre acero, dos represas; 30 varas bebedores de 2 pulgadas.

Todo en perfecto estado. Las haciendas pueden visitarse con gran facilidad puesto que el establecimiento 'Los Alamos' dista solo 6 leguas de Junin y 12 del Bsegado. Mas pormenores a nuestra casa San Martin 51.

BLANDENGUES

Partido de Chascomus

Sobre la via ferrea del Sud

TREN ESPRESO IDA Y VUELTA

Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.

Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiente mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso.

El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomi.ado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental o Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para estos remate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais o importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

Valiosisimo Remate

DE LOS

CAMPOS

CONOCIDOS POR

"EL CERRITO,"

Departamento del Parana,

Provincia de Entre Rios.

39 1|2 leguas cuadradas en un solo lote

Esplendidos campos de pastoreo, con arroyos permanentes, montes etc., con frente al Rio Parana y puertos para embarque y desembarque.

Base de venta $f.160,000 oro.

En nuestra casa—ALSINA 78.

El Miercoles 16 de Marzo,

A las 2 de la tarde.

Remataremos por orden del Directorio del Banco Nacional y con la rasa de ciento cuarenta mil pesos fuertes oro pagando el veinte por ciento al contado y el resto en una letra a 90 dias con intereses del Banco renovable con amortizacion del 5 p cent trimestral sobre la suma ordinario de hipoca del bien raiz.

Esta valiosa propiedad domidada El Cerrito ubicada en el departamento del Parana distrito Tala, Maria Grande, Hernandarias y Antonio Tomas.

Se compone esta propiedad de treinta y nueve y media leguas cuadradas con un frente de mas de 3 leguas sobre el Rio Parana teniendo al interior innumerables arroyos en su mayor parte de aguadas permanentes, algunas de las cuales como el de la Curtiembre, Las Palmas del Medio, de La Cruz, que desembocan sobre el Rio Parana. Sobre el primero de estos arroyos existia la poblacion de la Curtiembre cerca de la Roca de Arroyo del mismo nombre donde existe un buen puerto ya muy frecuento La otra poblacion principal es el establecimiento El Cerro con algunos puertos de su dependencia distante de la ciudad de Parana 7 (siete) leguas, en esa parte y en el cual fondo como diez y siete leguas. La calidad de los campos en su mayor parte son pastos fuertes y entreverados, en los arroyos y canadas pastos tiernos, estan ademas muy poblados de montes de maderas duras como Nandubay, Algarrobo, Espinillos y renovales que se prestan a ser esplotados en grande escala.

Debemos llamar muy especialmente la atencion de los capitalistas, no solo de este continente ano que lo del viejo mundo, pues una area tan vasta situada en un rio navegable para buques de todo calado, con puntos accesibles a los mismos con inmensos montes cruzados por innumerables arroyos de aguada permanentes que esta destinada a hacer la fortuna de las personas que se dediquen a su esplotacion; en prueba de ello podemos citar los campos conocidos por el Potrero en la misma provincia que hace pocos años fueron comprados por los Srs Unzue, Gelmaner y Ca, en 800,000 ps. fts, y que no darian hoy esa propiedad por el doble.

La propiedad El Cerrito debidamente poblada y esplotada sera una mina de oro. Y estamos convencidos de que sus compradores podran pagar en las condiciones ventajosas y facilidades dadas por el Banco Nacional los plazos estipulados en el producto mismo de este grandioso establecimiento de campo.

El terreno acaba de mensurarse y esta perfectamente dividido en treinta y nueve lotes cada uno amojonado, de manera que se preste para el arriendo en fracciones pequeñas si es que el comprador no quiere esplotarlo todo entero.

Los interesados pueden ocurrir por mas datos y plano a nuestra casa Alsina 78.

De tres anos arriba

800 NOVILLOS

En muy buen estado para invernar

De la Estancia La Florida

De los Sres. GUERRICO Hnos.

Sobre el pueblo

San Antonio de Areco

En nuestra casa, Alsina 78,

El Sabado 12 de Marzo,

A las 2 de la tarde,

Remataremos a la mas alta postura y dinero de contado—

1,500 vacas de vientre de 3 anos arriba, en muy buen estado, la mayor parte de estas estan servidas por toros puros y mestizos, de manera que el comprador lleva una gran ganga al comprar estos animales, pues dentro de 4 o 5 meses se encontrara con doble numero de hacienda, siendo la mitad mestiza.

Las vacas se encuentra en dos rodeos a saber—

El de La Florida que se compone de 2500 cabezas, y

El de La Porteña que se compone de 4,000 cabezas.

Del primero se venderan 500 vacas y 1000 del segundo.

Para los Sres estancieros que estan poblando campos en la frontera, es esta una brillante oportunidad, por encontrarse los animales en tan buenas condiciones para arrearse a grandes distancias.

De los mismos rodeos venderemos todos los novillos de 2½ anos arriba en muy buen estado tanto para saladero como para invernadas, y los interesados lo veran por sus propios ojos.

La venta se hara lo mismo que las vacas, es decir, la novillada de cada rodeo por separado o una con opcion a la otra. Para comodidad de los compradores, los rodeos estaran parados todos los dias al amanecer.

Por mas informes a nuestra casa Alsina 78, donde se efectuara el remate el dia arriba indicado.
